

Before Before

Charles Manson

Almighty [?]
God is
Air, right

Before world war 1
Before world war 1
Before world war 1
Before time was soft, back
Before, before it was
Before
Before anything
Before was war

In Manson's inner sanctum

There is no war
It is the grave
The inner sanctum of the mind of a slave
Raised as a slave
To the doubts and fears of
The human condition
What is that?
I don't know
I heard people talking about it though
