

Same Old Situation

Charley Crockett

It's the same old situation I've been hearing all about
I met someone and she loved me, and then love's flame burned out
I don't know how it happened but she found somebody new
She left me for another and it broke my heart in two

It's the same old situation that's got me in its spell
And I know that if I lose her, I'll lose my pride as well
And when I've lost my pride, dear, where will it let me be?
It's the same old situation for me

It's the same old situation that's got me in its spell
And I know that if I lose her, I'll lose my pride as well
And when I've lost my pride, dear, where will it let me be?
It's the same old situation for me
