

Jersey Bull Blues

Charley Patton

If you got a good bullcow : you ought to keep your bull
bull at home

Say may come along a young heifer : and just tow your
bull from home

Oh my bull's in the pasture babe : Lord where there's
no grass

I swear every minute : it seems like it's going to be
my last

And my bull got a horn : long as my arm

I've an old five pound ax : and I'll cut two different
ways

And I cut my little woman : both night and day

I've an old five pound ax : and I just dropped in your
town

I got women now behind me : just try that old ax on
down

And I remember one morning : between midnight and day

I were way upstairs : throwing myself away
