

## Cup of Love

Charley Pride

From what I read and see there's a lot of misery  
Some people just can't seem to get along  
And time and time again I see some troubled friend  
And they wonder what we're doin' right and what they're doin' wrong

So we just drink we just drink from the cup of love  
Yes we drink from the cup of love  
And there's nothin' in this whole wide world that we can't rise above  
When we drink from the cup of love

They wonder how we meet the bitter and the sweet  
It's just love that helps us weather all the storms  
Through the good times and the bad the kind we all have had  
The refuge that we always seek is in each other's arms

So we just drink we just drink from the cup of love  
Yes we drink from the cup of love  
And there's nothin' in this whole wide world that we can't rise above  
When we drink from the cup of love  
When we drink from the cup of love
