

Ellie

Charley Pride

That honey gold hand goes and emerald roll eyes
That little girl look can't hide the woman inside
Cause that innocent smile means she's ready for love
Or the she even know that she's all grown up

Ellie may and Ellie may not
Cause my daddy even makes my foot run hot
Ellie may and Ellie may not
If I ever start fallin' new I may never stop

Ellie's like picture she's work a thousand words
Cause she see in me what I'm seein' in her
Ellie plays my heart like a fine guitar
If I were in her arms would she go that dawn

Ellie may and Ellie may not
Cause my daddy even makes my foot run hot
Ellie may and Ellie may not
If I ever start fallin' new I may never stop

When Ellie moves makes me stop and stare
If my heart skips a beat would she even care
Ellie wind me up I've give I come on wound
Will she makes me up I come tumblin' down

Ellie may and Ellie may not
Cause my daddy even makes my foot run hot
Ellie may and Ellie may not
If I ever start fallin' new I may never stop

Ellie may and Ellie may not
Cause my daddy even makes my foot run hot
Ellie may and Ellie may not
If I ever start fallin' new I may never stop
