

# Everything I Am

Charley Pride

Ev'rything I am all that I hope to be  
You're my inspiration and my soul  
I'm the end result of all your sweet understandin'  
And I just want to thank you for lovin' me and ev'rything I am

Now I don't know if heaven would never let me in  
But if he knew how much I loved you he might think it over again  
To have an angel on my side well it might just get me through  
Cause when it's time for leavin' baby I wanna go with you

Cause ev'rything I am all that I hope to be  
You're my inspiration and my soul  
I'm the end result of all your sweet understandin'  
And I just want to thank you for lovin' me and ev'rything I am

Well I may not deserve you but I hope you never see  
How unfair it is I've got you and all you've got is me  
But I'm the one who's got you and I'm never turnin' loose  
Cause I'm high on life and high on lovin' high on believein' in  
you

Ev'rything I am all that I hope to be  
You're my inspiration and my soul  
I'm the end result of all your sweet understandin'  
And I just want to thank you for lovin' me and ev'rything I am  
And I just want to thank you for lovin' me and ev'rything I am
