

I'm Glad It Was You

Charley Pride

I was such a lonely man
Till you came and took my hand
I needed someone's love to see me through
I waited all my life it seems
To find the answer to my dreams
And darling I'm so glad that it was you

It seems the road's been rough at times
We didn't even have a dime
But through it all your love was strong and true
And I remember through those years
A gentle hand would dry my tears
And darling I'm so glad that it was you

If I had a chance to live my life again
I could only take it if I knew
You would stand beside me then
Just the way you've always been
Cause darling I'm so glad that it was you

If I had a chance to live my life again
I could only take it if I knew
You would stand beside me then
Just the way you've always been
Cause darling I'm so glad that it was you
Yes darling I'm so glad that it was you
