

Love Is a Shadow

Charley Pride

Love is like a shadow and shadows always change
You never even notice they've gone till you feel the rain
And clouds steal the sunshine like a lover steals a heart
And shadows steal away like two people driftin' apart

We were shadows dancing in the starlight
And we were lovers makin' shadows on the shades
And now we're strangers makin' shadows leavin'
I guess I should have known that shadows never stay

Love is like a shadow and shadows always change
You never even notice they've gone till you feel the rain
And clouds steal the sunshine like a lover steals a heart
And shadows steal away like two people driftin' apart
And love is like a shadow and shadows always change
