

## Right Back Missing You Again

Charley Pride

I had you neatly tucked away way in the back of my mind  
And I thought I'd learn to live with losin' you  
Then you came walkin' through the door like the dream you've al  
ways been  
Now a million mem'ries flood my eyes  
And I know I'm right back missin' you again

My world's a brand new place since you are gone  
And I've got me some new friends to carry on  
I even make the same ole places we once knew  
And I was doin' fine till tonight till I saw you

Cause I had you neatly tucked away way in the back of my mind  
And I thought I'd learn to live with losin' you  
Then you came walkin' through the door like the dream you've al  
ways been  
Now a million mem'ries flood my eyes  
And I know I'm right back missin' you again

I had you neatly tucked away way in the back of my mind  
And I thought I'd learn to live with losin' you  
Then you came walkin' through the door like the dream you've al  
ways been  
Now a million mem'ries flood my eyes  
And I know I'm right back missin' you again  
Now a million mem'ries flood my eyes  
And I know I'm right back missin' you again
