

Time (You're Not a Friend of Mine)

Charley Pride

When she was here by my side seems you just went flying by
Oh time you're not a friend of mine
It was you who took away the happiness of yesterday
Oh time you're not a friend of mine.

Now she's gone we've loved our last it seems as though you'll never past
Oh time you're not a friend of mine
But if you could bring her back to me or take her from my memory
Then time you'd be a friend of mine.

So many sleepless nights I've spent you never want to let them in
Oh time you're not a friend of mine
But if you could bring her back to me or take her from my memory
Then time you'd be a friend of mine.

Time you're just a friend of mine...
