

# When She Dances

Charley Pride

When she's walkin' down the street she might not ever caught yo  
ur eye  
She don't talk much maybe she's simple and maybe she's just shy  
But when the lights go down and the band begins to play  
Her soul drinks up the sound and her body starts to sway

When she dances she's like a wind in a long tall grass  
When she dances she's got so much soul  
She can make you forget ev'rything she's thinkin' of  
She can make you fall in love when she dances  
When she dances ohhh when she dances

She's the one who lives up the road her daddy's workin' on the  
line  
She's here most every night to hear the music and pass the time  
And all night long she never stops and time goes by like she's  
in a dream  
And all the guys they just sit and watch  
Cause she's the finest thing that they've ever seen  
Right now she's as gone and she's as free  
As anything in this world could ever be

Yeah when she dances she's like a wind in a long tall grass  
When she dances she's got so much soul  
She can make you forget ev'rything she's thinkin' of  
She can make you fall in love when she dances  
When she dances ohhh when she dances
