You Snap Your Fingers (And I'm Back In Your Hands)

Charley Pride

You snap your fingers and just like that I'm back in your hands I cried a river washin' your mem'ry away And I finally made it at least till you phoned me today And I nearly hung up but teardrops destroyed my plan You snap your fingers and just like that I'm back in your hands You snap your fingers and just like that I'm back in your hands Startin' all over right back where I've always been And I'm just beginnin' to learn some things never end You snap your fingers and just like that I'm back in your hands

And I'm just beginnin'... You snap your fingers and just like that I'm back in your hands
