Guess I suck nuts My luck up, I'm stuck up When I'm down they feedin off a bitch Parasitin, so I'm writin this song for them Light skin Type Slim Think I had shit easy? So you wanna talk greasy? Please be judgmental after the facts Yall pouters get to live my life on this track This goes out to all y'all jealous niggaz and bitches FUCK Y'ALL!

They dream they have all the things I did So I drop these words inspired by Big Only love those who love you too Only trust those who trust you too Only hate those who hate you too And never ever ever be a fool And never ever ever be a fool And never ever ever be a fool

At 15 received ass kickins from niggaz
At 18 cats was ass stickin my niggaz
I figure I never had a chance for peace
22 mom of two so the stress increased
At 24 four people I love diseased
In less then a year my life sweet from were?
Fear my tears
Cause they'll say its a break down
I take down the pain with Hennesy
But enemies shoot it up they veins high
Make lives tumors in other brains
I remain Tiffany Lane
No doubt tryna sort out
