

Apple

Charli XCX

I guess the apple don't fall far from the tree
'Cause I've been looking at you so long now I only see me
I wanna throw the apple into the sky
Feels like you never understand me so I just want to drive

To the airport
The airport
The airport
The airport

I guess the apple could turn yellow or green
I know there's lots of different nuances to you and to me
I wanna grow the apple, keep all the seeds
But I can't help but get so angry you don't listen, I leave

To the airport
The airport

I'm gonna drive, gonna drive all night
I'm gonna drive, gonna drive all night

I think the apple's rotten right to the core
From all the things passed down from all the apples coming before
I split the apple down symmetrical lines
And what I find is kind of scary, makes me just want to drive

I wanna know where you go when you're feeling alone
When you're feeling alone, do you?
I wanna know where you go when you're feeling alone
When you're feeling alone, do you?
