You're so damn cold Yo've got no feelin' I want my blood hotter Not satisfied I need to taste it Your sex is so over

Got the gun in my hand
And I'm pointing straight
To the target and
I'm gonna blow my brakes
I don't need you
My touch is better
I'm rollin' much harder

Lights out
On my own
Got my darkness
I'm into myself
Don't need you
'Cause I'm gone
So high
Got my darkness
I'm into myself
Don't need you

'Cause I can make it feel just like I'm hanging on Yeah I can do it better when I'm all alone

Lights out So high All alone

I've got a body of my own

I'm in control
My hands are shakin'
My skin's getting wetter
I'm coming close
It's overloading
I'm walking with fire

Spin around in my head and I'm screaming out But with you in the room I can never shout This heroin I'm sinkin' so deep Wish I could stay here forever

Lights out
On my own
Got my darkness
I'm into myself
Don't need you
'Cause I'm gone
So high
Got my darkness
I'm into myself

'Cause I can make it feel just like I'm hangin' on Yeah I can do it better when I'm all alone

Lights out So high All alone

I've got a body of my own

Lights out

Got my darkness I'm into myself Don't need you 'Cause I'm gone So high

Got my darkness I'm into myself Don't need you 'Cause I'm gone So high

Got my darkness I'm into myself Don't need you 'Cause I'm gone So high

Got my darkness
I'm into myself
'Cause I'm gone....
