

# Chains

Charli XCX

You got a blue heart, you got magic hands  
You blow me candy kisses, we've got secret plans

I'm in a black box, but I can see the light  
I'm on the other side, of this paradise

We could run away  
We could run away  
Take me out this place  
We could break the chains

We could run away  
We could run away  
Help me please escape  
We could break the chains

I got a lot of love but I'm scared it's gonna go to waste  
Locked inside an empty room, how can i get through to you?

Lying on the floor I'm just a body in an open grave  
I just wanna scream your name, I am gonna rise again

We could run away  
We could run away  
Take me out this place  
We could break the chains

We could run away  
We could run away  
Help me please escape  
We could break the chains

I just wanna kiss your face  
I just wanna have a taste  
I am gonna break the chains, chains, oh oh uh-oh

We could run away  
We could run away  
Take me out this place  
We could break the chains

We could run away  
We could run away  
Help me please escape  
We could break the chains

I just wanna kiss your face  
I just wanna have a taste  
I am gonna break the chains, chains, oh oh uh-oh

I just wanna kiss your face  
I just wanna have a taste  
I am gonna break the chains, chains, oh oh uh-oh
