Cross You Out

Charli XCX

Built a world
All in my mind
All on my own
Will I survive? Oh

Century of tears
Sadness was my only smile (Yeah)
Thought I'd fall apart
But you're gone and I'm doing fine (I'm screaming out)

(Oh, wha ah oh)
When you're not around, when you're not around
When you're not around, when you're not around
When you're not around, when you're not around
I'll finally cross you out
(Oh, wha ah oh)
When you're not around, when you're not around
When you're not around, when you're not around
When you're not around, when you're not around
I'll finally cross you out

Melt me down
One piece at a time
I'm sayin' these eyes were shut
I wasn't mesmerized, no

Century of tears
Sadness was another denial (Yeah)
Thought it fell apart
But now you're gone, I'm doing fine
(I'm screaming out)

(Oh, wha ah oh)
When you're not around, when you're not around
When you're not around, when you're not around
When you're not around, when you're not around
I'll finally cross you out
(Oh, wha ah oh)
When you're not around, when you're not around
When you're not around, when you're not around
When you're not around, when you're not around
I'll finally cross you out

I've become someone better
I've become someone better
Yeah yeah
Now I look in the mirror
And I learn I'm so better
Yeah yeah
I've become someone better
I've become someone better
Yeah yeah
Now I look in the mirror
Feels so good to forget ya
Yeah yeah

(Oh, wha ah oh)

When you're not around, when you're not around
When you're not around, when you're not around
When you're not around, when you're not around
I'll finally cross you out
(Oh, wha ah oh)
When you're not around, when you're not around
When you're not around, when you're not around
When you're not around, when you're not around
I'll finally cross you out
(Oh, wha ah oh)
When you're not around, when you're not around
When you're not around, when you're not around
When you're not around, when you're not around
I'll finally cross you out
