

Cuts Like Diamonds

Charli XCX

You make me feel like I could sparkle through the night.
You are beautiful like lightning, when you kiss me I'm electrified
You are like magic, you're my angel in the sky.
You're my baby, never leave me catching all the tears I cry.
Oh you're the glow in my heartbeat. You're the spark in an empty room.
You're the song on the repeat. You're the star when you're in full bloom
And I hope that you know, I'm always be right by your side.
Crystals just don't satisfy. Hey did you know that:
I'll always be in love with you. I can't fake it, my heart's taken.

Our love cuts like diamonds, your love alone worth finding
Give me your heart, give me what you're hiding
Our love cuts like diamonds.
Our love will burn down cities, your love the fire within me.
Give me your hand, we are shining. Our love cuts like diamonds.

I feel your power, we could take over the world.
You're the apple of my eye, I know that I'm your only supergirl
. Don't need no rubies, don't need admirals or pearls.
We are perfect just the way we are.
Hey, did you know that: I'll always be in love with you.
I can't fake it, my heart's taken.

Our love cuts like diamonds, your love alone worth finding
Give me your heart, give me what you're hiding
Our love cuts like diamonds.
Our love will burn down cities, your love the fire within me.
Give me your hand, we are shining. Our love cuts like diamonds.
