

# Let U Down

Charli XCX

I won't let you down  
No, I won't let you down  
No, I won't let you down

White pills, empty hotel  
Teardrop, stand still  
Phone calls, kiss through windows  
Whisper "I'm true [?]"  
Your voice, open up  
White pills, white raindrops  
Don't choke, I'm here standing still

'Cause I won't let you down  
No, I won't let you down  
I won't let you down  
I won't let you down  
No, I won't let you down  
I promise, I promise, I promise  
No, I won't let you down

White pills, empty hotel  
Good girl, don't tell  
I feel like I've been here before  
No one to say they hate me, no one at all  
She says she couldn't save me  
Said she'll never call

'Cause I won't let you down  
No, I won't let you down  
I won't let you down  
I won't let you down  
No, I won't let you down  
I promise, I promise, I promise  
No, I won't let you down

I know, it's so easy to blame me, the blame I take it all  
(The blame I take it all)  
White pills, empty hotels  
I'm not staying strong (I'm not staying strong)  
Give it up for you (Give it up for you)  
Give it up for me (Give it up for me)  
I promise, I'll be fine, but tonight I'm taking three

'Cause I won't let you down  
No, I won't let you down  
I won't let you down  
I won't let you down

No, I won't let you down  
I promise, I promise, I promise  
No, I won't let you down
