

# Lightning

Charli XCX

Don't know what to say  
One look and then you blew me away  
I'm spiralling all over the place  
So lifted, got me reaching for grace  
Body off the ground

Caught me by surprise  
Like seeing shooting stars in the sky  
There's danger in the dark of your eyes  
But something 'bout you breathes me to life  
Got me here and now

Heartbreak already hit me once  
They say that it won't happen twice

You struck me down like lightning, lightning  
You struck me down like lightning, lightning  
My stupid heart can't fight it, fight it, uhh  
So tell me what you want and I'ma give it to you  
Like lightning  
Blinded, blinded  
You took me down, I don't mind it, mind it  
My stupid heart can't fight it, fight it, uhh  
So tell me what you want and I'ma give it to you  
Like lightning

Electrified with love on the line  
So different every touch, every time  
Connected by invisible wires  
Don't you cut me out

Heartbreak already hit me once  
So swear that it won't happen twice

You struck me down like lightning, lightning  
You struck me down like lightning, lightning  
My stupid heart can't fight it, fight it, uhh  
So tell me what you want and I'ma give it to you  
Like lightning  
Blinded, blinded  
You took me down, I don't mind it, mind it  
My stupid heart can't fight it, fight it, uhh  
So tell me what you want and I'ma give it to you  
Like lightning

Uh-uh, uh, uh, uh-uh  
Tell me what you want, tell me what you want  
Lightning, lightning  
Give it to ya, give it to ya  
(Walk away, I'll follow my soul)  
Blinded, blinded  
Yeah, tell me what you want, tell me what you want

L-L-L-L-L-L-Lighting, l-l-l-l-l-l-lightning  
Lightning  
You're love- lightning

You struck me down like lightning, lightning  
You struck me down like lightning, lightning  
My stupid heart can't fight it, fight it, uhh  
So tell me what you want and I'ma give it to ya  
Like lightning  
Blinded, blinded  
You took me down, I don't mind it, mind it  
My stupid heart can't fight it, fight it, uhh  
So tell me what you want and I'ma give it to you  
Like lightning
