

# Party 4 U

Charli XCX

I only threw this party for you  
I only threw this party for you, for you, for you  
I was hopin' you would come through  
I was hopin' you would come through, it's true, it's true  
I only threw this party for you  
I only threw this party for you, for you, for you  
I'm about to party on you  
Watch me, watch me party on you, yeah

1000 pink balloons  
DJ with your favorite tunes  
Birthday cake in August  
But you were born 19th of June  
Champagne pourin' in your mouth  
Caught your friends from out of town  
Got the party bag with the purple pills  
And I'm waiting for you by the window, yeah  
Called your digits, but the phone kept ringin'  
Wish I knew what you were thinkin'  
Na-na-na 1000 pink balloons  
Dancin' on to your favorite tunes  
Hope you're lookin' to party  
'Cause I threw the party just for you like what

I only threw this party for you  
Only threw this party for you, for you, for you  
I was hopin' you would come through  
I was hopin' you would come through, it's true, it's true  
I only threw this party for you  
I only threw this party for you, for you, for you  
I'm about to party on you  
Watch me, watch me party on you, yeah

I only threw this party for you  
Only threw this party for you, for you, for you  
I was hopin' you would come through
