Charli XCX

Not supposed to feel this way  
I'm such a hypocrite  
I always frown on love  
It's giving me a tummy ache (All these butterflies make me sick)  
Make me fly away (It's some Hocus Pocus shit, I'm bewitched)  
For what?

Calling too much, you're breaking my phone  
Mad when you do and sad when you don't  
Chivalry, ooh, you taking my coat  
Too cute, no, this ain't me now  
Candlelight, out on a starry night  
You brush my hair to the side  
And you tell me I'm pretty

Yuck  
Now you got me blushin'  
Cheeks so red when the blood starts rushing  
Yuck  
That boy so mushy  
Sending me flowers, I'm just tryna get lucky  
Yuck  
Lookin' at me all sucky  
Yuck  
Quit acting like a puppy  
Fuck  
Going all lovey-dovey on me

You got your hopes high  
Thinking 'bout it most nights  
Put me on a pedestal  
'Cause my loves incredible  
Don't wait up for me  
I can't make those plans  
Catch me if you can  
Just flew into Japan  
Come catch me (But don't you catch feels, that's so)

Yuck  
Now you got me blushin'  
Cheeks so red when the blood start rushing  
Yuck  
That boy so mushy  
Sending me flowers, I'm just tryna get lucky  
Yuck  
Lookin' at me all sucky  
Yuck  
Quit acting like a puppy  
Fuck  
Going all lovey-dovey on me

All, lovey-dovey on  
Yuck  
All lovey-dovey on me  
(Why you do this to me?)  
All lovey-dovey on  
Yuck

All lovey-dovey on me  
All lovey-dovey on  
Yuck  
All lovey-dovey on me  
All lovey-dovey on  
(Why you do this to me?)  
All lovey-dovey on me  
(Why you do that? Why you do that? Why you do that?)

Yuck  
Why you do that? Why you do that? Mmm  
Yuck  
Why you do that? Why you do that? (Mmm)  
Yuck
