

Make You Wait

Charlie Burg

Ooh baby
When will I see you again?
Ooh baby
When will I see you again?

You are my sunshine
If ever you need light I'll give you all mine
A one-way love will never make me feel right
All these love songs exhaust me
And they'll never be what makes you come to me

She leaves
We stumble into autumn filled with unease
Still you embrace all of my insecurities
Oh Seattle I'm leaving
And imma go to bed and dream of PA

I won't make you stay baby
Though in my fever I tell you to wait
Ya still light the way baby
I guess some things never stay the same

Ooh baby
When will I see you again?
Ooh baby
When will I see you again?
