

## Don't Go Far

Charlie Cunningham

You're here, but won't be for long  
Just till that certain song comes on  
Heart is broken, they won't ever stop

I don't wanna know  
I suppose where you are  
But don't go far  
They've told us [?]  
Both know that's hard  
But don't go, don't go far

Just leave me alone, mind of mine  
You waste my time  
I'm not taking steps anymore [?]

I don't need know  
I suppose where you are  
But don't go far  
We should try to let go  
Even though it's hard  
But don't go, don't go far

Here, but won't be for long  
Just till that certain song comes on

I don't wanna know  
I suppose where you are  
But don't go far  
We should try to let go  
Even though it's hard  
But don't go, don't go far

I don't wanna know  
I suppose where you are  
But don't go far  
We should try to let go  
Even though it's hard  
Just go, but don't go far
