

Lessleg

Charlie Cunningham

Remember when we were younger we'd all sit and analyze
How we gonna make things add up and all our lives coincide
Many have come and gone and some fell by the wayside
To say the ones left are strong is a thing that's been tested a
nd tried
So many times
And I can't decide
If the pack gets divided less likely survives, that's well reco
gnized
It's information rely
So maybe before too long then we should all reorganize
Start to make things add up and all of our lives coincide
For a while
For all that we've done before wait too long we synchronize
We're gonna get things kicked off with a shot when everyone els
e arrives
To be polite
We should be polite
If the pack gets divided less likely survives, that's well reco
gnized
Intentioned advice
What's he not drinking for?
Get some more, pour him some more, pour him some more don't tal
k
What's he doing thinking for? That should be left at the door
This one's this to get the start right
And this one's so it stays right
And this one's just to wash them both down
Stand up turn around
Put the empty glass on your head, see if you can stand on one l
eg
