

# Telling It Wrong

Charlie Cunningham

Oh no, this is ominous  
And it's creeping towards us  
You should know  
When you go  
That anywhere you go, you're not going alone  
You've been telling it wrong  
There's no turning time back  
You should only think about surviving  
Just start with that  
More than just a question of time and  
Who's facing facts  
Question worth striving  
Oh, so anonymous  
Bet you wonder how I noticed  
You should know  
When I go  
That anywhere I go, I'm not going alone  
Oh, Is anybody watching them  
Stopping them  
They keep on telling their story  
Too long  
On and on  
The stops and the starts and the slows should be fast  
They keep on telling it all wrong  
Oh, you've been telling it wrong  
There's no turning time back  
You should only think about surviving  
Just start with that  
More than just a question of time and  
Who's facing facts  
Question was driving  
If you work this out  
You'll call for more  
Calling out loud  
Fall to the floor all over  
You've been telling it wrong  
There's no turning time back  
You should only think about surviving  
Just start with that  
More than just a question of time and  
Who's facing facts  
Question was driving  
Come one, come all  
When we run, man crawls is  
More than just a warning  
Come one, come all  
When we run, man crawls is  
More than just a warning
