

Bottom Line

The Charlie Daniels Band

I'd fight every tiger in Southeast Asia
Go walking across the Sahara desert
Or the jungles at Peru
I would drink all of the tea in China
Chop down every pine tree in North Carolina
Just to be with you

I could be faithful, brave and loyal
Leading the way in a battle royal
Ain't nothing I won't do
Win all the money in Las Vegas
Climb the top of the Himalayas
Just to be with you

I'd never leave you and I'd never deceive you
That's the one thing you can count on
And I'd love you in the daytime
Love you in the nighttime, too
Now I don't want fortune and I don't want fame
I've just got one dream you can make it come true
Let me tell you baby all I really want to do (want to do)
Bottom line baby I just want to be with you

I'd change the course of the Mississippi
Go paddling across the Atlantic Ocean
In a leaky old canoe
Climb to the stars on a make believe ladder
Bring back the moon on a silver platter
Just to be with you

I'd climb a mountain of molten lava
Or ride a wild horse from the plains of Java
All the way to Katmandu
Straighten the leaning Tower of Pisa
Repaint the smile on the Mona Lisa
Just to be with you

I'd never leave you and I'd never deceive you
That's the one thing you can count on
And I'd love you in the daytime
Love you in the nighttime, too
Now I don't want fortune and I don't want fame
I've just got one dream you can make it come true
Let me tell you baby all I really want to do (want to do)
Bottom line baby I just want to be with you (be with you)
Bottom line baby I just want to be with you (be with you)
Bottom line baby I just want to be with you

Be with you, be with you
I just want to be with you
Be with you, be with you
I just want to be with you
Be with you, be with you
I just want to be with you
Be with you, be with you
I just want to be with you
