

## Whose Side Are You On

The Charlie Daniels Band

Sneaking down the alley at the end of the block  
They come to a door and give the secret knock  
The door opens quietly and they all hurry inside  
Well it's 2001 the year of our Lord owning a Bible is against the law  
And if you want to praise Jesus you've got to find a place to hide

Just a few true believers in the middle of the night  
Reading the Bible by candle light  
They kneel down in prayer as the sirens are startin' to wail  
They come and break down the door but nobody runs  
The police hurry in with night sticks and guns  
They put them in handcuffs and take them all off to jail

You say this is America we ain't got nothing to fear  
But if something don't change you're gonna see it happen here  
Land of the free home of the brave you'd better wake up before it's too late  
Get ready to rumble put all of God's armor on  
It won't happen in Washington it's got to be us  
You know them politicians ain't got the guts  
To stand up for Jesus when the battle lines are drawn  
Whose side are you on

It's gettin' late but the battle ain't lost  
He's raising an army at the foot of the cross  
With the weapon of prayer and the everlasting power of love  
It's time to take off the gloves change all the rules  
Take back our streets and take back our schools  
(Hey Satan) take your hands off America the beautiful

Don't worry about the darkness for we are the children of light  
And we can still win the battle but it's gonna be a whale of a fight  
Land of the free home of the brave you better wake up before it's too late  
Get ready to rumble put all of God's armor on  
We're killing our babies before they are born  
Stand up and be counted come and sound the alarm  
Are you one of God's children or nothing but the devil's pawn  
Whose side are you on whose side are you on
