

Defrost Your Heart

Charlie Feathers

You grew cold and acted smart
Want you please defrost your heart?
Fill it's trays with love sweet and warm rm-rm
Melt the ice and snow away
Let the sun shine in to stay
And mend the love that is tattered and torn

I love you more than I can tell
So please release me from this spell
Help a heart that is dying for you ou-ou
Cause your driving me insane
To much load upon my brain
Defrost your heart
And prove your love for me is true

I been walkin', I been cryin'
Don't know why I keep on tryin'
To win you back and make you feel
the same-ame-ame
Like you did not long ago
When I know you loved me so
But I can see
That my hopes are all in vain..a-ain-a-ain
