

Plenty Of Everything But You

Charlie Louvin

Last night the moon was shining made a perfect night for love
And I had love words that I know would've made you mine
Well my arms were reaching to hold you tight and my lips were burning too
I've got plenty of everything but you

I've got plenty money for a weddin' band and a pretty suit of blue
And heaven only knows how many years I'll have to make love to you
And I know a preacher who will do his part while we say I do
I've got plenty of everything but you

I could smell that ham a fryin' hear the cowbell down the lane
And mom was humming some old love songs so sweet
But it set my heart to pining and I know just what to do
I've got plenty of everything but you
I've got plenty money for a weddin' band
