

Banging on Your Door

Charlie Mars

Baby I know that
you don't love me
you don't love me no more
And that boy I
see you around with
I know he's so good
I know he's so good
I know he's so good for ya

But here I am
and I'm banging on your door
I know i said
I won't do this to you no more
girl it's just me and your heart
Been out late on the town
you know we ain't the same
without you around

Girl I know that
you can't trust me
you can't trust me no more
And the words I fill you up with
I know they no good
I know they no good
Girl I know they no good for ya

But here I am
and I'm banging on your door
I know i said
I won't do this to you no more

girl it's just me and my heart

Been out late on the town

you know we ain't the same

without you around

it don't take no xray eyes

to see that I

I'm tangled up inside

and that my heart

Baby here I am

and I'm banging on your door

I know i said

I won't do this to you no more

girl it's just me and my heart

Been out late on the town

you know we ain't the same without

we ain't the same without

we ain't the same without

you around
