Lights Go Out

Charlie Puth

I've been trying there's no denying
That girl you've got my heart falling so fast
My mind's racing you've got me wasting
My days are endless till I see you pass
And I'm like
Oooooooohhh
Baby did I catch your eye?
Oooooooohhh
Can I see you tonight

When the nights go out
You know it's going down
The music playing is all we need
When were all alone
You don't wanna take it slow
Forget it all and come home with me
Come home with me

Take my hand girl we'll cross this land till
We find a place that we can call our own
Trust in me and I'll set you free
Babe, I'll never ever leave you feelin cold
You got me like
Oooooooohhh
Tell me I'm the only one
Oooooooohhh
And I'll see you tonight

When the nights go out
You know it's going down
The music playing is all we need
When were all alone
You don't wanna take it slow
Forget it all and come home with me

Come home with me
Come home with me
Come home with me
WIth me, with me

When the nights go out
You know it's going down
The music playing is all we need
When were all alone
You don't wanna take it slow
Forget it all and come home with me

When the nights go out
You know it's going down
The music playing is all we need
When were all alone
You don't wanna take it slow
Forget it all and come home with me
 (Home with me)

When the nights go out
You know it's going down

The music playing is all we need
When were all alone
You don't wanna take it slow
Forget it all and come home with me

The music playing is all we need
When were all alone
You don't wanna take it slow
Forget it all and come home with me
