

## Marks On My Neck

Charlie Puth

All I got left are the marks on my neck after you let me go  
It's hard to forget when you messed up my head, 'cause I let yo  
u get too close, yeah

I should of never have, never have, never opened my heart again  
Wasn't worth it  
Why did I let you, I let you, I let you get all under my skin  
Wasn't worth it

On the surface  
You were perfect  
But ya didn't really come to stay  
Now when I look  
In the mirror  
I slowly watch you fade away

'Cause all I got left are the marks on my neck after you let me  
go  
It's hard to forget when you messed up my head, 'cause I let yo  
u get too close  
Now all I got left are the marks on my neck after you let me go  
It's hard to forget when you messed up my head, 'cause I let yo  
u get too close

I tried to cover it, cover it, cover it with foundation  
Didn't help it  
Try to get over you, over you, over you but you dug in  
And I felt it

On the surface  
You were perfect  
But ya didn't really come to stay  
Now when I look  
In the mirror  
I slowly watch you fade away

'Cause all I got left are the marks on my neck after you let me  
go  
It's hard to forget when you messed up my head, 'cause I let yo  
u get too close  
Now all I got left are the marks on my neck after you let me go  
It's hard to forget when you messed up my head, 'cause I let yo  
u get too close  
It's hard to forget when you messed up my head, 'cause I let yo  
u get too close
