

A Mellow Melody

Charlie Rich

I wanna play a little mellow melody for you
A really pretty little mellow melody for you
Cause maybe if I play a little mellow melody for you
Then maybe you will sing a little singalong song with me

I wanna plant a little kiss just a sweet little kiss on you
I wanna make a big hit, no I don't wanna miss on you
I wanna play a little mellow melody for you
Then maybe you will sing a little singalong song with me

And then we'll fly, fly, fly
Together we'll sing our love song to a little white cloud
And if we try, try, try

The world will join our singing if we sing our singalong song o
ut loud

I wanna play a little mellow melody for you
A really pretty little mellow melody for you
Cause maybe if I play a little mellow melody for you
Then maybe you will sing a little singalong song with me

I wanna play a little mellow melody for you
Maybe you will sing a little singalong song with me
I wanna play a little mellow mellow melody for you
I wanna play a little mellow mellow mellow melody for you
