

Break Up

Charlie Rich

Well who's that guy you been seein' most every day
He shouldn't be allowed to come and take my baby away
Honey why don't you wake up all you gotta do is make up
Come on baby don't break up with me

Well I saw you walkin' with him just the other night
I almost flipped when I saw him squeeze you tight
Honey why don't you wake up all we gotta do is make up
Come on baby don't break up with me

Don't you remember all the things that we used to do
Before he came along and he looked at you
Don't you remember when you said I love you so
Baby now please don't go

Well I don't know exactly what I'm gonna do
Because if you like him and I know that he likes you now
Honey why don't you wake up all we gotta do is make up
Come on baby don't break up with me

Don't you remember all the things that we used to do
Before he came along and he looked at you
Don't you remember when you said I love you so
Baby now please don't go

Well I don't know exactly what I'm gonna do
Because if you like him and I know that he likes you now
Honey why don't you wake up all we gotta do is make up
Come on baby don't break up with me
Come on baby don't break up with me
