

My Baby Done Left Me

Charlie Rich

My baby's done left me, done said goodbye
She doesn't care if I live or die
I don't know what to do, but sit here and cry
Because my baby's done left me, done said goodbye

Well, I'm oh so lonely, you'll never know how lonely
Well, I'll die for her kiss, I can't go on like this
My baby's done said goodbye

Well, I remember the time she said, "I love you so"
I didn't think she'd ever let me go
I was a fool, now I know
'Cause my baby's done said goodbye

Well, she left with everything I used to own
The car and the money for a brand new home
For her I worked my fingers to the bone
But now she said goodbye and I'm oh so lonely

My baby's done left me, done said goodbye
She doesn't care if I live or die
Don't know what to do, but sit here and cry
Because my baby's done left me, done said goodbye

And I'm oh so-so lonely
You'll never know how lonely
Well, I'll die for her affection
To me she was perfection
But my baby's done said goodbye
Yes, my baby's done said goodbye-bye baby
My baby's done said goodbye-bye baby
My baby's done said goodbye-bye baby
