

Night Talk

Charlie Rich

After candlelight dinner and that sparkling wine
And the music is soft and the mood is so fine
When we finish making love, and just laying there
Winding down the passions as I stroke your hair

That's when we start that night talk
That easy night talk
We get into that moody night talk
'Til the sun comes peaking through the door

That's when we start that night talk
That easy night talk
We get into that moody night talk
'Til the sun comes peaking through the door

I love the feeling when you pull down the blinds
'Cause I know I'll soon be going right out of my mind
You do most of your talking with your fingertips
And most of your walking with your sweet lips

And then I love our night talk
That easy night talk
We get into that moody night talk
'Til the sun comes peaking through the door

And then I love our night talk
That easy night talk
We get into that moody night talk
'Til the sun comes peaking through the door

I love our night talk (Night talk)
It keeps me from messin' around
