

To Sing a Love Song

Charlie Rich

I need a reason to sing a love song
It's been so long since anyone cared
When she was leaving I sang a blues song
And blues are all I've known
Since the love that we shared
And it's been a long time since
This heart of mine did anything
Just keep time without inspiration

Will you be my reason to sing a love song
And know that I belong to someone again

Will you be my reason to sing a love song
And know that I belong to someone, someone again
