

Whirlwind

Charlie Rich

They're coming around
The words you've sent
No changing your mind
It's your only regret
To live is to face your darkest fears
Running away is what keeps you here

It's because
Of your lies
I begin
To find my way
Only now
Do I see
In the distance
Denial highway

When I'm away
You'll be lost
In a whirlwind hate
All the problems
You create
Can't you see
It's just dead weight

When I'm away
When I'm away

Don't try, don't try, don't try ...

You've wasted away
The time you've spent
Judging with jealous eyes
You can't forget
You welcome the pain
And live with fear
As dreams begin to blur
Stagnance appears

It's because
Of your lies
I begin
To find my way
Only now
Do I see
In the distance
Denial highway

When I'm away
You'll be lost
In a whirlwind hate
All the problems
You create
Can't you see
It's just dead weight

When I'm away
When I'm away

When I'm away
When I'm away

When I'm away
