

Out of These Blues

Charlie Robison

Did you say that you were leaving as soon as the sun turns red.
That's when I go right out of my head.
There ain't no sunshine deep down in a cold dark hole.
Baby that's just the way that I roll.

Well I thought I loved a woman.
Sweet Caroline.
Well she left me and I went plum out of my mind.
She went slow dancing with another cause I stayed behind.
Baby that's just the way that I roll.

Well sometimes life leads you to empty motel room behind the truck stop, with the lights off, saying darling now don't stop. Marcelena Señorita so nice to meet you. Can you help me on out of these blues.

We'll love won't come and love don't wait, but what makes me crazy are those out of state plates.
See I never knew when to hold em, but I sure know when to let go.
Baby that's just the way that I roll.

Well sometimes life leads you to empty motel room behind the truck stop, with the lights off, saying darling now don't stop. Marcelena Señorita so nice to meet you.
Can you help me on out of these blues.
Can you help me on out of these blues.
