

Please Let Me Go

Charlie Simpson

Please hold my hand tonight
Cause it's so cold outside
And the trees are whistling to themselves
Just trying to keep warm
I'm feeling so alone
Like a dog without a bone
Just please keep still
Cause I don't want this

Please just let me go
Please just let me go
Cause I don't want you
I don't need you anymore
I don't want you
I don't need you anymore

Well just keep hold of your wits son
Cause you've still got so much to learn
I know I'm pushing you so hard
I can't bear to see you fall down (ohh)
Oh but please keep still
Cause I don't need this

Please just let me go
Please just let me go
Cause I don't want you
I don't need you anymore
I don't want you
I don't need you anymore
And I don't want you
I don't need you anymore
