

Another Man

Charlie Wilson

Hello

Who is this?

Uncle Charlie, it's me, Case

Boy this better be good, waking me up two o'clock in the morning

I think my girl left me for another guy

What you talkin' about boy?

I came home, all the shit is gone

I don't know what to do

Uncle Charlie, I need you to tell me what to do man

Man, talk to me

There's numbers on my phone bell

That's showing up far too long

One day I called and found out

My baby's doing wrong

Thought I was a perfect man

Though me and my friends

We have a drink or two

Confusion taking over

What am I gonna do?

I don't understand what's the problem

They said he treats her right and he do what she likes

They never fuss and fight

They said she spends the night

There's another man with my woman

I don't understand what's the problem

They said he treats her right and he do what she likes

They never fuss and fight

They said she spends the night

There's some things that it seems you don't know

Uncle Charlie gonna tell you how it should go

That woman of yours need love

She can fool around just like you do

Fuss and fighting ain't gone pull you through

All she really wanna know

She's the only one for you

There's another man with my woman

They said he treats her right and he do what she likes

They never fuss and fight

They said she spends the night

There's another man with my woman

I don't understand what's the problem

They said he treats her right and he do what she likes

They never fuss and fight

They said she spends the night

Did you treat her wrong?

Did you treat her bad?

I know you done her wrong

So tell me what you gonna do about it

I thought I was the man

But I guess my best wasn't good enough

She'd still be here with me

If I gave her all of my love
You need to put your pride aside
Forget about what your friends say
If she's the one you need for you
Then get down on your knees
And make her come home
