

Don't Think About It

Charlotte Church

Lonely man
Looks like me when I'm out walking
Lonely man
Looks like us when we're through talking
Lonely man
Looks like her in a dress and stockings
Lonely man
Looks like me but it's not worth stopping

So don't pay no mind
Don't even think about it
He's just another mad man
Trying to get at it
You're so fine
You don't have to think about it
You've already got me under your spell
And I admit it I don't even know you well

Hey, hey, hey

Teacher man
His head hurts, his brow needs moppin'
Teacher man
Interestin' but not worth stopping
Teacher man
Looks like her when she looks shocking
Teacher man
Tellin' all but learning nothing

So don't pay no mind
Don't even think about it
He's just another mad man
Trying to get at it
You're so fine
You don't have to think about it
You've already got me under
You don't have to think about it
You've already got me under
You don't have to think about it
You've already got me under your spell
And I admit it I don't even know you well
