

Keep Moving

Charlotte Day Wilson

The wind embraces you
In ways I wish I could
Around the bend and up your thigh, I would
Oh, the time comes
The time, it always comes too soon
I wish that I could slow it down with you
I wish that I could focus, yeah
Just tryna navigate your skin and bones
Tryna find my way, way back home

Sometimes I need
Something that's so far from me
But if it's not meant to be
I gotta keep moving
Keep moving

Forward to the edge
Hands above our heads
I came to collide
But you grip in case
You just wanna fall back, babe
I need you to love me like that, babe
Free and openly, my girl
'Cause all this time we spend inside
To keep it right, it hurts
So I communicate to those who know
I'm tryna find my way, way back home

Sometimes I need
Something that's so far from me
But if it's not meant to be
I gotta keep moving
Keep moving

I gotta keep moving
Keep moving
I gotta keep moving
Keep moving
I gotta keep moving
Keep moving
I gotta keep moving
Keep moving

Sometimes I need
Something that's so far from me (All need that)
But if it's not meant to be (But what if it's not?)
I gotta keep moving
Keep moving

I gotta keep moving
Keep moving
I gotta keep moving
Keep moving
I gotta keep moving
Keep moving

Sometimes I need

Something that's so far from me (All need that)
But if it's not meant to be (But what if it's not?)
I gotta keep moving
Keep moving
