

## Got To Let Go

Charlotte Gainsbourg

there's only one thing i think you should know  
you've got to be strong when the cold as the day  
got to realize when there's nothing left to say  
good things come and go  
one day you will know

you've got to let go, yeah you've got to let go  
yeah you've got to let go

when your night feels longer than the day  
love's a wrecking ball and you're in its way  
feels like everyone you know has close the door  
just don't feel like keeping on, anymore  
got to make up your mind  
our wounds heal in time

you've got to let go, yeah you've got to let go  
yeah you've got to let go x 2

it's a deadly revolver, it's a deadly revolver  
it's a deadly revolver to your head x4
