

# Out of Touch

Charlotte Gainsbourg

Please please please  
I'm calling for you my dear  
I hope you can understand  
I think it's time we changed our plan

All this while we're trying to raise up money  
It's all that we really have  
It seems to me we've lost our touch

Oh I had to start  
We've been out of touch  
Oh I had to start  
Can't keep myself away

All this time  
I'm trying to change my way  
But now that you live my life  
I'm starting to feel I've let you down

So please please please  
I'm calling for you my dear  
I hope you can understand  
I think it's time I changed the lock

Oh I had to start  
We've been out of touch  
Oh I had to start  
Can't keep myself away  
Oh I had to start  
We've been out of touch  
Oh I had to start  
Can't keep myself away

I hope to be with you  
And ain't no other way  
We speak each other's minds  
That's the only kind of touch  
But I'll always be here for you all the time  
So in a different kind of way  
I still love you just the same  
It seems to me we've lost our touch

Oh I had to start  
We've been out of touch  
Oh I had to start  
Can't keep myself away  
Oh I had to start  
We've been out of touch  
Oh I had to start  
Can't keep myself away
