

# Life Vest

Charlotte Martin

Nervous in the break room\*  
Waiting for the ball to drop  
The other foot to drop now

Started with a good year  
Turned into a bad year  
Salvaging the scraps I can

Thought we had a good time  
Thought we had tricked time  
You couldn't get away from me

I didnt feel the car crash  
Didn't feel my heart smash  
It happens too easily

Great ideas  
God, we had great ideas  
Didn't know this could happen to me  
Struggling  
To see the meaning in all of the meaningless  
I wasted when I had you here

Breaking out the life vest  
Cramming for the big test  
Cupping tears in your hand

Not ready to lose you  
Not ready for any of this to  
Mess up my plans

Great ideas  
God, I had great ideas  
Didn't know this could happen to me  
Struggling  
To see the meaning in all of the meaningless  
I wasted when I had you here

Never known so much love  
I never known so much  
I've never known so much

Promise me you'll hang on  
Promise you I'll hang on  
Promise

Will you wear your life vest  
I will wear my life vest  
Promise  
Promise  
Promise  
Promise  
Promise
