

Higher

Charlotte OC

You think I'm hanging on to your every word
But darling you're just talking to yourself
I watch you try your best to make me hurt
And all of my defenses go to hell

I am rising above a shadow of you
I am rising above

There's nothing else picking me up higher than the thought of y
ou
There's no one else showing me love who knows my life the way y
ou do

When I'm up here, your song turns me to gold
I'm lost inside a world that no one knows

I am rising above a shadow of you

There's nothing else picking me up higher than the thought of y
ou
Oh, there's no one else showing me love who knows my life the w
ay you do
There's nothing else picking me up higher than the thought of y
ou
Oh, there's no one else showing me love who knows my life the w
ay you do

Don't ask me how I got here
Just pick me up, pick me up
I'm almost too far gone

I am rising above a shadow of you
I am rising above

There's nothing else picking me up higher than the thought of y
ou
Oh, there's no one else showing me love who knows my life the w
ay you do
There's nothing else picking me up higher than the thought of y
ou
Oh, there's no one else showing me love who knows my life the w
ay you do
