

# Slowly

Charlotte Perrelli

You know you're far from home  
When free means "nothing left to loose"  
And no way back for you to choose  
So pardon me but i  
Don't know if i can keep this inside  
My heart is overjoyed with pride

We can take it slowly  
We can take it slowly  
But my heart want to love you right now  
We can take it slowly  
Tenderly and holy  
But i don't know how  
I am losing control of my body and soul  
Here and now  
We can take it slowly  
We can take it slowly  
I just don't know how

I walked a thousand miles  
My wishful thinking days were all gone  
I thought I'd end up here alone  
But, God i was so wrong  
It's not too late for love - love me now  
You found my heart someway somehow

We can take it slowly  
We can take it slowly  
But my heart want to love you right now  
We can take it slowly  
Tenderly and holy  
But i don't know how  
I am losing control of my body and soul  
Here and now  
We can take it slowly  
We can take it slowly  
I just don't know how

I believe  
Love is you, love is me  
I believe  
Love is true, love is free  
I believe  
There's nothing we can't feel  
I believe  
This is me, this is you  
I believe  
This is why love is true  
I believe  
That we can take it slowly...
