

Something

Charlotte Perrelli

I'm walking down the highway, no destiny
I feel kind of lonely, as a women can be
Searchin' for a new way, new way of life
Far away the distance, no sacrifise
For so many times, I was feelin' blue
Didn't know a thing, didn't know what to do

It's a little bit of something
A little bit in all that we do
You better believe it - Cause it's all up to you
It's a little bit of something
A little bit in all that we do
You better believe it - Then your spirit is free

I was walkin' down the highway, down in the rain
Ask myself a houndred times, things never change
Lookin' for a new way, new way inside
I need someone to talk to, to come to my life

For so many times, I was feelin' blue
Didn't know a thing, didn't know what to do

It's a little bit of something
A little bit in all that we do
You better believe it - Cause it's all up to you
It's a little bit of something
A little bit in all that we do
You better believe it - Then your spirit is free

There was a time, I was a child - Searchin' was life, was all a
bout
There was a time, I was a child - Searchin' was life, was all a
bout

Is's a little bit of something
In every human being
Gotta believe it - Cause everybody has a dream
Give a little something
There's a hope of you and me
You gotta believe it - Cause set the spirit free
